To our supporting Churches and Dear Friends:

Greetings in Jesus name.

Thank you from the depths of our heart for the many faithful years you have supported the Bell family it surely has been a wonderful journey serving Jesus together, no-complaints just praises. I would have written earlier but to be quite honest I couldn't get my thoughts together that would explain the struggles of my heart. Between the health issues and shut down of our country over this virus it has not been easy as you well know. We desire to be very transparent with everyone. I have just received the C.T. report of the liver cancer, 1 lesion has shrunk some and the other is about the same, some other smaller lesions have been found. Mamie has discontinued with her treatments for cancer prevention, her operation was successful and the radiation is over, praises the lord she is doing well. I have so loved the preaching ministry of our Savior, for sixty (60) years now. And I hope to do more but I am forced to slow down because of my health and age (80). It is obvious we can't keep the pace, but as health and opportunity allow we are whole hearted committed until the end. I write with tears falling, not because of a journey to hard but because it's slowly coming to its end.

A Looking-glass for Faults You can see great faults in others, but, my dear brother, be sure to look in the looking-glass every morning, and you will see quite as many faults, or else your eyes are weak. If that looking-glass were to show you your own heart you would never dare look again. I fear you would even break the glass. **Old John Berridge**, as old as he was good, had a number of pictures of different ministers round his room, and he had a looking-glass in a frame to match. He would often take a friend into the room and say, "That is Calvin, that is John Bunyan," and when he took him up to the looking-glass he would add, "and that is the devil." "Why," the friend would say, "it is myself!" "Ah," said he, "there is the devil in us all." Being so imperfect, we ought not to condemn

Praises and Prayer Request

1. For you who are so faithful to prayer and give that others may go.
2. For the Radiation embolization therapy we have undergone, and by God's grace it shrunk the cancer, it was 4x5 ,now Lesion 1: shrunk, Lesion 2 has not changed.
3. Update..**MAMIE'S BREAST CANCER**.She had a LUMPECTOMY. 4/20/20
4. They feel it was caught in early stage. Radiation was required. Could not do the chemo, tried but body would not tolerate it. **All treatment discontinued.**
5. As we face and embrace the future, we will continue to see the power of His gospel working in each of our lives.
6. I know we are older and sickly but we continue to spread his truth and we desire and intend to do so. The Lord willing!
