### **ONE SINNER IN DESTRUCTIVE WORK**

One little rat caused a dike to collapse in England years ago. After the rodent had burrowed through the embankment of a canal, water began seeping through. Slowly but surely, the original trickle became a sizable stream. Soon one bank collapsed and a 40-foot break-through let the water pour out in torrents. Three million gallons of water escaped; the canal was drained for seven miles; more than a million fish were swept away and a twenty-foot gorge was channeled through a nearby field.

It took sixty men with bulldozers three weeks to shift thirty thousand tons of soil and repair the damages.

As one tiny rat caused the tremendous harm, so can one individual like us start a chain reaction that will benefit everyone.

While it is true that "one sinner destroyeth much good" (Ecclesiastes 9:18), it is also true that you may never be aware of the far reaching good resulting from a seemingly insignificant prayer, word or deed. But God is and that is what counts.

"To them that love God, all things work together unto good"  
(Romans 8:28).*Unknown*
