Spring is on its way to South America. We realize that you have begun Autumn and the change for you is refreshing. God has an illustration in both of our hemispheres; Spring is a time to sow, and Fall is a time to gather that which was sown. So much of your time laboring in prayer, at your jobs, through your churches, and out of your abundance of grace to our need, is patiently waiting for what the Bible in 1 Corinthians 3:37 calls *increase*. It is more than *results*, it has an exponential value where you can realize your investment, not only in Peru, but in each of the other missions in countries and peoples you provide support. For example, our director Dr. John O'Malley and his wife Kim visit us and several missionaries on your behalf. They are the eyes and ears on the ground for you. After they

departed Peru, I sat praying and thanking God for them because they physically and spiritually contributed every ounce of their energy for a 'Nehemiah 2:10' event. It is quite difficult, even in a prayer letter, to properly convey how God is shaping us and using us. God's timing was perfect to bring the O'Malleys to experience the ministry the way we do; both in the fruit and the frustrations we are facing.

We are happy that pastor Aguilar has begun a doctrines course which has more than 25 attending. Some of the doctrines are so new to them that they fill pages with notes and exit in a daze with comments like, "I have *never* heard that before!" Twice a month Rose Marie has been asked to teach a 30 minute craft class to the ladies at church prior to the Wednesday evening service.

The present need is in the area of discipleship and for trained Bible counselors to use the growing momentum of interest and desire. Because, even while we have people asking questions, they talk to their friends and the demand grows exponentially. A few examples are: Daniel and Marai are a young couple who accessed the web to find a church near them. Families which were estranged from each other are reconciling their differences. I met Pedro's wife for the first time two weeks ago. Now she is attending regularly and brought her parents. Many people like Jacinto, Carlos, Caesar, and Jaun come straight from work and do not eat until after 9:30 pm. The more that evangelism happens, and the more people which are getting saved mandates the fulfillment of the Great Commission: to train disciples to evangelize. Each week we meet new people in class. One young lady named Wendy has been saved just over a month and has invited at least four or five others to attend. La Fe is healthy and growing into a more effective church body. Your effectual fervent prayers for La Fe and the surrounding neighborhoods are needed. God has instituted a wonderful discipling process and calls out for laborers while it is still day.

As we complete our plans to travel to the states in the next two weeks, I have several irons in the fire. I am developing the messages God is giving me to be delivered, the new ministry display and presentation, and seeing how much extra work it takes to pass-on my responsibilities to someone else to cover for us while we are absent to report back home. Please pray for us in our travels. Thankfully, while we are in a missions conference, our family is able to get together to meet the newest additions to the Blumer clan.

Whether we labor in the local churches of Peru, Classes at La Molina Christian School, or the ministries during our visit to the states, we *"desire that ye might be filled with the knowledge of his will."* As Paul did in Colossians 1:9-12 and *"Giving thanks unto the Father, which hath made us meet to be partakers of the inheritance of the saints in light."* Thank you for partaking in this ministry with us.
