

Greetings from Grenada!

April 2021

While soulwinning in a local village with one of the young girls, I was given the opportunity to talk to several people about Christ. Please pray for the salvation of those that are lost in their sin. Grenada is a very religious country, but many people have difficulty understanding and accepting the need for a personal relationship with Jesus Christ.

The youth girls Sunday school class is going well. Several of the girls have started to attend Wednesday church services as well. This month, we did another game and craft night which had good attendance. Please pray that they would begin to cultivate genuine relationships with Christ and allow Him to change their lives.

I have continued with the adjusting process to life here. Many have asked whether the volcanic eruption in the nearby island of St. Vincent has affected Grenada. So far, we have only experienced a very small dusting of ash from the volcano. Combining the ash with the dust from the Sahara Desert reaching us, I did have several days of needing to stay indoors with health difficulties. Please pray for the people in St. Vincent and each island in the Caribbean as the eruption continues. Pray both for their safety, supplies to be provided, and above all, for souls to be saved through this time of trepidation.

Please pray for finances as some vast, unexpected needs have surfaced regarding taxes for the year 2020. I know God is able to provide in His perfect timing. Thank you so much for your faithful prayers and support this month. I appreciate you.

Sincerely,
Rebekah Childers
