

Greetings from Grenada!

August 2021

Much has been happening as we prepare earnestly for the opening of Lifeline Baptist Christian Academy in September. The church office and classroom expansion project has been lengthier than anticipated but is nearly finished. The desks for our first-year students are also built.

This month, I held an activity night for the youth girls' class, with nine in attendance. Please pray for fruit to proliferate as we begin a lesson series on being "anchored in faith." Many of the girls have not yet made professions of faith or shown much consideration in areas of spiritual growth. Nevertheless, two of them are showing evidence of reliable faithfulness and made some godly decisions.

This past weekend, I was enjoying time in my house when a large tarantula decided to come through the door and join us! After a few screams (from my little niece who was visiting), and the spider's furious attempts at running right towards me, I was able to sweep it outside. My fear of furry and slimy creatures was still quite evident as my brother assisted in the annihilation thereafter. Looking at photos afterwards, God prompted me with the thought that God knows even the number of hairs on a spider, just as He numbers the hairs on our heads! I am appreciative for the dependable prayers of many as I continue adapting to life here on the Island.

My monthly support level increased some in July which is a huge answer to prayer. As of now, I am still hindered from the purchase of a car due to finances, but I trust that God is working, even in ways I cannot see. The DMV in my home state is also delayed in sending my renewed drivers license (which will be needed for obtaining my next temporary one here in Grenada).

As always, I thank my All-Sufficient Father for you and value the sacrifices you make to contribute to supporting this ministry. God is using you in a powerful way!

Because HE Lives,
Rebekah Childers
Missionary to Grenada
