

Dear Praying Friends,

February-March 2022

During February, the church held a local fundraiser for the new school building project. Despite the rain, it was truly inspiring to see the nationals come together, spending hours cooking outside and enjoying unity with one another. I am also humbled and grateful for the generosity of churches in the US donating various supplies and needs for the academy. While there are other costs that will be involved, we only need an additional \$5,250 for the building expansion! God is so faithful!

My kindergarten students are getting stronger academically. We had our first parent/teacher conference this month! God gave me the privilege of speaking with one child about salvation by grace, through Jesus Christ! She was a beautiful illustration of child-like faith. Please pray for each of our current (and future) academy students to learn to know, love, and follow the Saviour. Pray that students and teachers will stay healthy and encouraged in the final term of our first academic year.

Please pray for the heart of those we minister to on the island. I am burdened specifically for the faithful attendance and spiritual growth of the youth girls. While there has been several who have visited in recent weeks and a couple who come regularly, others are following sinful desires, sports, and face challenging family lives. These have all been contributing factors to participation lessening.

God has worked and answered so many prayers during the extended delay with obtaining my renewed US driver's license. I am very thankful that this is now resolved! Pray that I can find a very affordable and reliable vehicle within the next few weeks.

Your faithful prayers are making a difference in worldwide missions!

Serving with Joy,
Rebekah Childers
