

The DEATRICKS

Praises

- Traveling safety
- 1 more supporting church
- Full schedule of meetings
- God is so good!

Prayer Needs

- Solomon Islands
- Wisdom and guidance in calling pastors and setting up meetings
- Continued safety and health
- Gain the support we need in His timing

Support Level

- 33%

EQUIP Fund

\$1,705

\$2,160

Dear Brothers and Sisters in Christ,

September 2015

A couple of weeks ago, we were privileged to visit Niagara Falls, USA and Canada. As I looked at the unimaginable amount of water pouring over those majestic cliffs, I was reminded of the verse in Isaiah 6:3, when the seraphims cry out, "Holy, holy, holy, is the Lord of hosts: The whole earth is full of his glory." This month we were so blessed to have the opportunity to witness some of God's glory through just a small part of His creation.

We had a busy month of deputation meetings, probably our busiest since launching out full-time in January. We enjoyed wonderful meetings in Michigan, Kentucky, and upstate New York. Making it to those states took a little over 3,000 miles of travel. We presented our burden for the Solomon Islands to 7 churches and were spoiled by each and every one. I was also grateful for the opportunity I had to preach to a Christian School for their chapel service.

We are praising God for bringing more support in this month. We are now at 33% - 1/3 of the way to the Solomon Islands! Please continue to pray for us as we finish out our meetings for this year. Lord willing we have 15 scheduled meetings and my ordination left in 2015. Please pray for continued safety on the roads. Also I am working on setting up meetings for next year. We are very thankful for the wonderful meetings we have had thus far and are looking forward to those remaining. God has been so very good to us! May the Lord bless you abundantly as you serve Him in your area of the world.

Solomon Islands Fun Fact:

Scientists just discovered the first "glowing" sea turtle while diving in the ocean of the Solomon Islands. This hawksbill sea turtle is the first documented reptile to glow by way of biofluorescence.

All for Him,
Michael and Nora Deatrick
