

The **DENEAU** family  
*Missionaries to Italy*

January 16, 2023

Dear Praying Churches and Friends,

I hope this prayer letter finds you well and that you all had a wonderful Christmas and New Year! For Thanksgiving we were able to park our camper at a supporting church and spend the day with a missionary family that was home on furlough. What a blessing it was to fellowship with them and it was one of the young ladies first American Thanksgiving ever! We ended our year in between Florida and Georgia before heading north for Michigan to spend the holidays with our families. The boys got to spend much time with their cousins and even got to play in some snow. While home we were able to spend a few services in our home church, which is always an encouraging time.

Our schedule for this year continues to fill up with meetings and we are looking forward to them. We are currently back to our camper in the South for the meetings we have coming up, please pray for safety as we travel. The boy's health has been better these past few weeks, we ask that you would continue to pray for their health as they had been quite sick while we were up north.

Our final prayer request would be for the Maietta family in Grossetto, Italy (the veteran missionaries that we will be working with while in language school) they are looking expand their Church building by purchasing a third storefront building adjacent to them. This would be such a blessing as the Church has been growing and they are in need of more room. Please pray for this church as they seek what the Lord has for them! Thank you again for your faithful support. We are currently at 50% promised support looking for these promises to be fulfilled in this early New Year.

In Christ,

Trevor Deneau

Your Missionary to Italy
