

# ELIAM FAMILY WONE BAPTIST CHURCH

**Katerson's Sunday School class**

**Sunday, April 07, 2013**

Dear Praying Friends,  
Greeting again to you from our family to you all. My wife and children are doing well. The children are growing now...Cheryl is going to turn ten in May. Nathan is eight. Hadessah is five and our little Keila is two...We want to thank you all your gifts and birthday gifts that they received from you.

when that location was a restricted from student access, the students went to the office to ask permission to use a room. The counselor allowed them to use one of the rooms during lunch hour to have Bible services. When we first got there, the young people took us to the office to let the counselor know that we had arrived (they had already talked to the counselor before we got there). We sang and our deacon preached; four young people responded to the gospel of Jesus Christ. One of them is now coming to church. His name is Tyson. After the service, we went around the campus passing out gospel tracts...Praise the Lord. A few weeks ago, we announced the we would be showing a documentary film on Sunday evening about the Mormon cult. A few adults from our area came when they heard that we would be showing this

film . After the film we explained the plan of salvation and a woman came forward for salvation. We don't know their heart...But like one preacher says, the parable of the Sower should encourage us because Jesus was preparing the apostles, and every other proclaimer of the gospel, to understand the four basic kinds of hearers they could expect to encounter.

I am encouraged to see what the young people are doing...I know what to pray for and one of the things that I should pray for is that God would give them the boldness to stand for HIM.

Please pray for our church location. The land case is pending, but in the meantime, we are looking for land to purchase to relocate our church.

Thank you for your prayers and support.

**N.M.H.S Campus**

Last month our deacon, some of the church member and I, had the privilege of going to N.M.H.S (Nanpei Memorial High School, a public high school) where some of our young people attend. It was my first time to go there. It was a blessing to see what they were doing. They have been holding services there since 2009. When they first started to hold services there, they used to have them outside. But

**My first Wedding performed**

**Site where the students held their first services**

**After the services**
