

Dear Praying Friends,

Greeting from the island of Pohnpei. One of the things the Lord is been reminding is to be grateful for all that HE has done and will continue to do through your prayers and your financial giving. Your prayers are truly making a difference. We don't deserve anything from Salvation, ministries, provision for needs, friends, church families, my oldest daughter's tuition and many others. The following are prayers and we would like to ask you to please remember us and pray for these prayer requests:

Our college students from Harvest Baptist Bible College are truly a blessing. We have assigned them to do preaching and Sunday school. One of the young men has witnessed to a cousin and he trusted Christ. Both the cousin and the wife have been coming to church. There were several others that come but not regularly. Please pray with us that God would get hold of their hearts. Two of the other young ladies are helping with the Sunday School.

In our previous letter, we mentioned one prayer request that was answered through you and many others who have prayed. We got the title deeds for the church property. We are still waiting for a "earth moving permit." Our deacon's sister, who is the king of Kitti's wife, has stopped the work. She said that she does not want a Baptist church on their land. Please, please pray for this matter. I know that this is the Devil's doing.

One of the couple from the church, Brandy and Dermly and their baby Debra, went to Kosrae to replace a missionary while he is on furlough. They will be ministering there for seven months. Please pray for them while they minister in Kosrae.

Pray for the ones who trusted Christ for salvation during the Baptist church youth camp. Several of them came back and shared how the Lord has saved them, and some of them requested prayers for them and their walk with the Lord.

Again, thank you very much, pastors and praying friends.
