

November 2022

Dear Friends and Family,

As many of you may know, for the last seven years, we have spent most of our summers at Servant's Heart camp filming and editing week in review videos for each week of camp. This summer God gave us a busy traveling schedule, however, we were still able to spend two weeks in June at camp. We helped train another young videographer to carry on making the camp videos for the rest of the summer.

We left camp to a busy schedule on the road in the month of July. We created church promotional videos for a church in Missouri and two more in North Carolina. It is always a joy to meet new pastors and work with them to bring their vision to reality.

During this trip, we made a stop at the Bill Rice Ranch where we worked with Evangelist Chris Miller on some projects for the Hope For America Crusades, but also spent time shooting footage for a new promotional video for the Ranch. While we did not edit and produce the video, you can see much of our footage in the new promotional video for the BRR.

Go to our YouTube channel to watch these newest church videos.

The month of August was spent at home editing each of the videos from our July travels. Due to a cancelation, we also had some time spent at home getting caught up from a busy year of travels.

Then in September we headed to Rockford, Illinois to join Evangelist Chris Miller for the second Hope for America Area-wide Crusade of the year. In addition to our video production responsibilities, Nathan was very involved in getting the livestream setup and overseeing the team of volunteers that would run the livestream each evening. On Monday evening of the crusade we had some real issues with the livestream due to a poor internet connection. It was such a blessing to turn the problem over to the Lord and see Him provide the solution that enabled us to have a solid connection for an effective livestream the rest of the week. It is wonderful to see what God is doing through these crusades and the souls that are saved.

After leaving Illinois we worked with two additional churches in Ohio and Pennsylvania to film their church promotional videos; we are currently working on the final stages of editing these videos. To close out the year we have several more video projects including videos for missionaries to Micronesia and Belarus.

As we look forward to the Thanksgiving and Christmas season, we definitely have so much to thank our gracious Lord for. Earlier this year, He graciously provided a new vehicle and has protected us over the thousands of miles that we traveled this year. In the last 18 months God has also provided new camera equipment beyond our hopes and expectations and continues to provide us with the right projects to fill our schedule and meet our needs.

God is so good.

God is already giving us projects and ministries for our 2023 schedule. We are so thankful for each one of you who support our ministry so that we can fulfill God's calling to help Churches and Missionaries communicate their message through video.

In the service of the King,
Nathan, Hannah, Grace, and Micah.
