## LENS OF THE **HARVEST**

### **We have a great opportunity.**

Many of you know that the true heart of our ministry is to create missionary videos, and our desire has always been to do this on the mission field. For the last number of years we have asked God to open the right doors for us, but we have not had the opportunity to travel overseas since 2018.

A few weeks ago, I (Nathan) was approached and asked to travel to a country in the Middle East to create a video to help raise awareness and funds for a Christian school that will be starting there. While it was short notice, we believe this is the exact opportunity that we have been praying for. I will fly out tomorrow (Thursday May 4th). I will be in the Middle East from the 5th-13th and will arrive back home on the 14th.

I would covet your prayers for safety both in travel and in my time in the Middle East. Please also pray for wisdom to create an effective video that would highlight the spiritual needs of this country and more specifically the needs of the planned Christian School.

Thank you for your support that makes this possible and most of all for your prayers.
