

## LENS OF THE HARVEST

### Exciting Announcement from Lens of the Harvest

For well over a year, we have been talking about our work on a documentary film about missions in Alaska, and we are excited to announce that the film has finally been released.

America's Backyard is a film highlighting the vastness of Alaska, the difficulty of ministry, and the great need for more labourers in this forgotten mission field. The film is created to help any Christian to lift up their eyes and look on the fields that are white already to harvest.

The film is just under 45 minutes in length, making it perfect to show to your church, Sunday school class, or to watch with your family. You can watch the film on YouTube by clicking the image below. For the best quality or viewing without an internet connection, the film can be downloaded by visiting [www.americasbackyardfilm.com](http://www.americasbackyardfilm.com).

We are excited for how God will use this film to raise awareness of a needy mission field and are grateful for each church or family that supports our ministry to allow us to create videos that advance the cause of the gospel.

Nathan, Hannah, Grace, and Micah  
Lens of the Harvest

In the frozen wilderness of Alaska, where roads end and hope fades, one man answers a call that few can hear. Armed with faith, courage, and a Bible, he braves rivers, snow, and isolation to bring the light of the Gospel to the forgotten corners of America's last frontier.
