SICILY UPDATE

November - 2002

Dear Friends,

We have a lot to report this month, however, it is not all good news. My, how things change so suddenly. But we rejoice in the fact that God never changes.

Linda fractured her right ankle again. She was walking down the street in Catania and tripped over a door mat in front of a business. She was in a temporary cast and in bed for a week, and now in a cast till the 25th of November. She can walk with crutches, but still has a good bit of pain. This is the same leg that was injured last year.

During this time, Linda and I moved into a furnished apartment and in the same building with Sister Tina, the one that lost her husband Nino three months ago. We hope to be some company to her as well as an encouragement.

Mt. Etna, the volcano, has erupted again. Many of you have seen it on the news. For several days it was raining lava ash. People outdoors were having to wear mask and use umbrella's because the ash was getting in their eyes and irritating them. The airport was closed down for several days. Then we began to have earthquakes and tremors. No one in our area was killed, but an earthquake up on the mainland caused a school to collapse and killed 29 children.

Sister Tina has had sever pain in her back and side. The doctor thought she had a kidney stone, but after they made xrays, they concluded that there was an infection in her bones and arthritis. Sister Giovanna has been suffering some time now with her back. Please keep both of these sisters in your prayers.

I would like to ask all of you to pray for one of our friends Julia Blanton, which lives in the states. She lost her daughter, who was 38 a few weeks ago. May the Lord of ALL COMFORT be with her and her family.

Our track of the month is "God's Simple Plan of Salvation". We continue to give our Bibles to those that are interested as well.

Linda and I thank the Lord for your prayers and support. May the Lord richly bless each of you.

**In Christ,
The Jordans**
