Dear Friends,

I was sorry to hear about the storms that have brought destruction of property and lost of lives in various parts of the United States of America. Storms are sure to come. Storms will try our faith (Mark 4:40). When storms came in the lives of the disciples, it seemed that Jesus was asleep or away on a mountain. They asked him, "Master, carest thou not that we perish?" (Mark 4:38) Even today people are still asking, where was the Lord or why did He allow this to happen? However, we know He cares( I Peter 5:7) "And we know that all things work together for good to them that love God, to them who are called according to His purpose" (Romans 8:28)

Linda's trip to the States went well. The important part, was that the treatments really helped Sister Janet. When they returned, she was able to walk much better. Thanks to our children, Linda was able to fly down and spend three days with them. Many thanks to you that prayed. Please continue to pray for Sister Janet Galioto.

This past month we had some first time visitors. There was a family of four came a couple of weeks ago. When people come to the Baptist Church they find that it is quiet different than they expect it to be.

Graziella continues to have problems with her health. There is a possibility she will have surgery soon. Many have asked about my heart condition. The doctor is started to give me encouraging reports. I have another check-up scheduled on the 26th of this month. My stress test was postponed because

of department transfer at the hospital.

In a few days we will have a future missionary to Italy visit with us. Paul Childress is still in Bible School at Crown College in Tennessee. He has one more year of school. Pray that his survey trip goes well.

The dollar continues to lose ground against the Euro. Due to the declining exchange rate, we have lost 15% of our support this year. Please pray that the dollar will not lose any more of it's value.

Until next month, may the Lord bless each of you greatly.

In Christ service,

The Jordans
