

JORDANS UPDATE LETTER

WORLDWIDE NEW TESTAMENT BAPTIST MISSIONS

P.O. BOX 725 KINGS MOUNTAIN, NC 28068

Greetings in Jesus Name. We never cease to be amazed how God works. He has moved in the lives of people that I thought had no interest. He has provided needs through sources that I could never imagine. But we know that God does business that way.

A few weeks ago, one of the house manager's son had a bad car accident and was killed. It just seemed that words were of none effect. But he has turned to Jesus for comfort and to me for answers. Sometimes the loss of a love one hurts for a long time, but spending time in the Word and walking with the Lord will keep the mind off of it.

We have had some interruptions in our studies because of house maintenance. Only one house has been an extended delay. There has not been very much of this over the years.

We continue to have two men coming with us to church regularly. We see some slow growth in them.

Linda and I went last week to see my sister-in-law, who is bed ridden. She is not able to talk but is eating well. My brother is doing a good job taking care of her.

We certainly appreciate all of you who stand with us as we study the Word with those who otherwise would never go to church.

In Christ,

Brother & Sister Jordan
