

JOHN O'MALLEY

August 23, 2007

Dear Friends and Supporters,

The Lord's goodness made this summer time of ministry pass with effective service and extra special blessings. Thank you for your prayers for safety and Spirit filling as we serve. You make the difference in the spiritual productivity of our meetings and ministry.

Fifteen years ago God called me to work with WWNTBM. He made it clear I was to be available to help get the world another missionary and to help those already called. He called me to train and proclaim.

***The O'Malley, Trenton, and Lovell Families.
(A recent picture made with Kim's parents and sister's family.)***

Our Ministry of Training:

I spoke in three missionary agency's schools. These training times are vital to a missionary's outreach and outlook. I spoke on matters pertaining to servanthood, the call of God, and practical matters. Your support by finances and prayers make it possible for me to be in these places to train and preach to missionaries. Thereby, helping them continue in the work to which God called them.

Our Ministry of Proclaiming:

The Lord opened doors for me to speak in two missions conferences and five churches. The missions commitments that came in totaled over \$150,000.00. It takes the faith and passion of God's people to commit these mission dollars through their local church. It is a delight to see their response to God's Word in this manner.

On a personal note, our son John discerned God's will for college. He leaves August 29 for Golden State Baptist College in Santa Clara, CA. He will have a double major in Bible and Music. We are anxious to see what God has in store for John as he pursues his education. He will be working to pay his way through school. He will receive a 25% scholarship on his tuition for being a missionary's son. We praise the Lord for his desire to serve the Lord and know our God will teach him how He will be his Provider.

Please pray for an immediate need. My Ford Explorer has a cracked head and the engine has to be replaced. It has produced a challenge for us as we spent \$1200.00 before the mechanics finally figured out the head was cracked. The timing of this and getting John into college is giving us an opportunity to watch God work. Please pray.

Sincerely yours,

John O'Malley
