

# THE O'MALLEYS

A MINISTRY OF GETTING THE GOSPEL TO THE REGIONS BEYOND

## The Ministry

This spring, God gave us safety and success in the work of missions.

### MARCH

I spoke in four missions conferences and saw over \$200,000.00 committed in Faith Promise missions giving. The Lord allowed me to meet with four prospective missionary families and counsel with several college students about future missionary service.

### APRIL

I was invited to speak in Chapel at Golden State Baptist College in Santa Clara, CA. I also got to speak in classes at Ambassador Baptist College in Lattimore, NC. The Lord gave great meetings in IN, WV, SC, AL, and NC during this month.

### MAY

I made my second trip to Haiti. I also had wonderful missions conferences and a tent meeting in NC. The commitments to Faith Promise were increases. The Lord used His Word to change lives. I also spoke with three families about missionary service.

## Haiti Happenings

Twice this spring I visited Haiti. World Wide New Testament Baptist Missions has two missionaries there. One is a National Pastor; the other is a Surgeon. The Lord allowed me to meet with both in the second largest city, Cap Haitien. The second trip allowed me to visit the clinic where Dr. Livingston sees

more than 40 patients a day. These patients hear the gospel preached to them before the clinic begins. People come from across Haiti to be seen by this Doctor. The visits there helped with future developments within those ministries. Below are pictures from Haiti..

**A VILLAGE:** The children in this village live amongst trash. When the trash heaps fill the low lands, the people build.

**VILLAGE LIFE:** The mornings are filled with ladies bearing their wares on their head for sale in the streets.

**KIDS IN THE TRASH:** What these children are standing on is garbage. I watched as they played amidst the filth. Haitian people need the Lord.
