

First Quarter, 2022

Dear Praying Friends,

This Summer, I will lead the See The Harvest Boston team. We will target Lawrence, MA, in the greater Boston area. There is an existing church, and we will target the neighborhood near the church with the Gospel. The church is in a neighborhood of Spanish and English speakers. We are looking for speakers of both languages to help with literature distribution, evangelistic outreach, and special services to reach the community's adults and youth.

Please pray for souls to be saved, laborers to come with me, and the church we will assist to benefit from our visit. See the Harvest helps church members see, learn, and do Harvest work. If you or someone you know is interested in reaching people this Summer on a missions trip, please give them this website: SeeTheHarvest.com. The dates for the trip are June 28-July 5, 2022.

In April, World Wide New Testament Baptist Missions holds its first post-covid annual meeting. Over 150 people from our missions' family will attend this meeting. The conference encourages missionaries, creates a context of fellowship, and gives our office staff an opportunity to connect with the missions' family. We will have over forty children in attendance. Please pray for the preaching to be spirit-led, the fellowship to be pleasant, and the atmosphere to uplift all who attend.

This Summer, I plan on visiting the Middle East to visit our brethren to strengthen and encourage them in their work for our Lord. Our agency has many partners in the Gospel from North Africa to the Middle East. I will go later this Summer to let them know they are remembered, loved, and are the subject of our prayers. I will preach and teach. I will hold their arms up in their tireless work of the Gospel. Please pray now for this trip.

The Lord chose several health events in our lives which changed many of our plans since last November. After eight surgeries and over two months in the hospital, and a month at home in Alabama, Kim's mother came to live with us to heal. I got COVID for the second time, followed by pneumonia. My health is improved. Please pray for strength for Kim.

Your investment in the work of the Gospel to which God called us, allows us to proclaim God's word in preaching. Your support helps us encourage hundreds of missionaries. Your prayers enable me to strengthen churches as they give. Your monthly giving makes it possible for me to live and travel to visit missionaries. Your contributions mean I can train and assist missionaries in their Great Commission work.

Thank you for making our ministry possible.

John and Kim O'Malley
