March 2007

Dear Friends,

February was a whirlwind of activity. The kind that really wears you out. God has been good to give us the strength to make it through. We flew to Maine on February 3rd to help with the construction of an airplane hanger. We helped with the insulation and vapor barrier, then worked on the heating ductwork. A preacher's fellowship was held at the church and my wife was able to help with the serving. It was a great day for all. The last Sunday we were there a young lady was saved during the morning service. Her parents were saved recently and are very active in the church now. Please pray for this family.

We presented the ministry in Georgia, N. Carolina and Indiana, where we saw several people make decisions to further their service to the Lord. This is such a blessing, not only to our hearts, but the heart of the pastor. It is my prayer that God will use my life to bring others to Him.

Melinda had a couple of opportunities to witness to ladies as we traveled. Please keep these two ladies in your prayers. We also passed out many tracts along the way.

Our camper had a major roof problem and had to be retired. The cost of repair was too great. After praying about it and seeking some advice, we decided to purchase a newer model. God gave us a good deal on a 2005 Keystone Cougar. This has quite a bit more room than the old one and the payment is only a little bit more. We would like to pay this one off sooner and have more money to put into our travel expenses. Please pray that God will enable us to do that.

Thank you for praying for our ongoing needs. We certainly appreciate your love and support. God is showing Himself to us each day. We now have about 75% of our support. We praise the Lord for His provision. Thank you also for your letters, emails and calls. We love you all.

Serving Our Savior,

Jack & Melinda
