November 2007

Dear Praying Friends,

Hello to all of you in the name of our Savior, Jesus Christ. Thank you for your prayers and support. It is such a blessing to know that you are praying for us. Satan tries to discourage us and hinder us but the Lord is faithful to lift us up.

Our time to get ready for the trip to Africa is getting shorter and shorter. We still have much to do. Please pray that the Lord will give us strength and wisdom as we work out the details. The main thing we are working on right now is getting a container to share with the missionary family we will be with. Just two days ago, we found out that the container we were going to use will not be available. This has put more of a financial strain on us. The cost of shipping has also gone up. We now need approximately \$4000.00. God is able to provide. He has already given us someone who will be able to take the container to port. Please make this a matter of prayer each day.

I was able to do quite a bit of electrical work for a church near our home this month. The pastor is working a full-time job while trying to build the church. They have a small group of people so we are praying that the Lord will add "such as should be saved". They will be moving into the building very soon. When I presented my ministry there, a man came to us after the service and said that the Lord had spoken to his heart about his service to Him. He said he now realizes that he can do more for God. Praise the Lord!

Just today I received a call from a missionary in need of our help. Sadly, the timing for this is not going to be possible. But this does let us know that our ministry is becoming more widely known.

We ask that you remember our ongoing prayer requests: 1) health and safety 2) new support 3) funds for our Ghana trip 4) unspoken 5) sale of our home.

Thank you all for your notes and e-mails. We truly appreciate them.

In service to our Lord,

Jack & Melinda
