April/May 2008

Dear Friends in Christ,

We have arrived safely in Africa and are working to get ourselves settled into life here. Things are very different here so we are trying to learn things very quickly. One thing that is something of a challenge is wash day. The second day here we all needed to wash clothes, sheets, towels, etc. Most things had been packed away for the last 8 months. The washer was brought out and hooked up to the electricity. We took buckets and filled it with water and clothes but it wouldn't work. Brother Walker and I worked on it to no avail. He said they had an old wringer style washer in the storage room. We took it out and soon had it working. The ladies took the clothes from the other washer and put them into this one. After they washed awhile, they wrung them out by hand and rinsed them in two tubs, then put them in a second machine that would only spin the water out. Then they hung them on the line to dry. We had so much laundry to do that it took 3 days to wash it all. In Ghana, power outages are an everyday occurrence so you have to allow more time to do things.

The services here have been a great blessing to us. There have been over 120 people in the Sunday morning services here every week. It is such a blessing to hear them sing and praise God. They are so thankful to have their Pastor back and they have shown us so much love and care as well. The last two Saturday Bible Studies with the ladies and children have given four salvation decisions. Please be in prayer for these new converts. I have also had an opportunity to preach in one of the Sunday services and the teen Bible study. Please pray that God will continue to use me.

**Praises:**

Four Salvations Decisions  
Dial-up Internet Service

**Prayer Requests:**

Health and Safety  
Remaining Support  
Building Supplies  
Above all, that many will be saved

Serving our Savior,

Jack & Melinda
