ASSISTING WITH CHURCH PLANTING, FURLOUGH RELIEF AND MAINTENANCE

July 2015

Dear Praying Friends,

We are writing to inform you of an unexpected development. I have had a recurring infection in my lower abdomen. I have been treated for it about 4 times. The doctor on Pohnpei decided that I needed to see a specialist. He referred me to the Medical City Hospital in Manila, Philippines. I have traveled to Manila and have been admitted to this hospital as of Thursday. So far, I have had blood work and an MRI. We hope to have the results from that very soon. The doctor says that if the MRI confirms his diagnosis, I will have to have surgery. Please pray about this. The insurance we have in Pohnpei has covered most of my expenses, but we had to purchase the plane ticket for Melinda to travel with me, and we also have to cover all her meals, laundry, and so forth. She is able to sleep in the room with me so that is a blessing. We hope to return to Pohnpei in about 10 days. Please pray that I will recover quickly, and we will still be able to take the mid-August ship to Nukuoro. We are so anxious to get there. We trust the Lord to take care of everything in His time.

In His Service,
Jack & Melinda
