ASSISTING WITH CHURCH PLANTING, FURLOUGH RELIEF AND MAINTENANCE

September 2026

Dear Ministry Friends,

We have had a whirlwind summer. It is so comforting to know that so many of you are praying for us. Our hearts are full as we see how God is using us to meet needs in so many places. Thank you for your prayers and financial support.

We started the summer with a two-month stay at Gleanings for Christ Ministries in West Virginia. We installed sewer at two campsites. We also cut down trees and brush around the property. The main focus was beginning work on the small building that we are turning into a house. There is still a lot of work to be done. We are planning several more trips here to do work as funds become available to them.

Our trip to Wyoming went well. We completed the sound booth and added an extra-small table for possible use as a battery charging station. We extended the platform, built the walls for the booth, built the desk area for the sound equipment, and built and installed a two-drawer cabinet for microphones and other equipment. It turned out really nice, and the church people are happy. They should be able to move into their new auditorium in a few weeks.

God has provided for our camper to be repaired! It was in need of four new stabilizing feet, a new awning, and electric brake repair. It is now ready and paid in full! Praise the Lord for His provision. We will be picking it up in a few days. The camper is an important part of our ministry. It enables us to have inexpensive housing while helping churches and ministries. It is small but so needed. Without it, our ministry would not be possible.

In SC, we were able to build a 16 ft. long cabinet for a church nursery. They will use it to house toys, supplies, trash, etc., and the top is a changing table. This has given them much-needed floor space. It also has a pull-out step stool for the toddlers to walk up for changing. The workers will not have to lift them anymore.

Our next stop is in Florida, where we will be working on cabinets for a church music room. The church we will be helping has been a great encouragement to us over the years, so we are so glad that we can be a help to them.

Please keep me in prayer because I have been having some shoulder trouble. I am doing some exercises for it and will see the doctor again soon. Hopefully this will clear the trouble. Also, pray for Pastor Ray. He has had a severe ear infection that he had to be hospitalized for. He is doing better now but is not back to full strength yet.

Keeping you all in our prayers.
In His Service,
Jack & Melinda
