Dear Gospel partners,

With gratitude for your cooperation with us in getting the Gospel to Mexico, I send this update. As a family, we hope you are doing well, but we're also aware that in a fallen world, there are so many needs. *Please let us know if there are any special prayer requests that you have that we could take before God on your behalf.*

Why does our counseling ministry exist?

There are masses of people in Mexico and Latin America, who, because of their Catholic religion, reject the invitation to attend a Gospel-proclaiming church. We have realized that we can engage them in a different setting. Rather than inviting them to a church service, we invite them to informal meetings in homes where we offer free family counseling. We have seen God use such meetings to bring many to Christ, and to serve as a bridge to the local church. We train pastors and key lay-leaders how to counsel biblically and how to open their homes in order to introduce entire families to Christ and assimilate them into the local church.

Missions Agency

In May, we had an interview with some of the board members of World Wide New Testament Baptist Missions (WWNTBM), together with our Pastor, Chris Haizlip. I'm grateful to announce that it's our privilege to serve Mexico together, aided by the ministry of these folks who love Christ and help the local church in getting their missionaries to the field. That said, **our new address to send support is:**
